

**2024 - 2025**

## **Personal Perspectives**

**Slated Candidate: Craig S Lloyd**  
**Toastmasters Education Level: LD3**

### **MY GOAL:**

- **Personal Goal:** Obtain a DTM
- **Goal for a fellow Members:** To give them value for their time they gave up to participate in Toastmasters.
- **Goal for my Club:** To attract guests, and turn them into members by showing the value of being a Toastmaster.
- **Goal for my Division:** Grow membership and get as many clubs to distinguished status as possible.
- **Goal for District:** Assist in becoming a distinguished district.
- **Goal for Committees:** To have them function as effectively as possible to achieve their stated purpose.

### **MY VISION for DISTRICT 30:**

To be a distinguished district, but not only that, to be known as a district that knows the sacrifice members take in achieving this goal and to recognize members for their efforts.

### **ACTION PLANS:**

To work with my Area Directors and members of the district executive council to get at the core of that it takes to achieve my stated goals.

### **To ACHIEVE / MY THOUGHTS & PLAN:**

To lead by example. Showing the individual Toastmasters, Area Directors and the District the value that I get in serving in the capacity as Division Director.

I fully embrace pathways and show others the value of our educational program. This can be particularly challenging in dealing with pre-pathways members.

Make sure each club has an action plan to become distinguished. It's one thing to say being distinguished is the goal and another to show it.

The District already has excellent recognition plans. I need to make sure all the members in all clubs in my division know about them.

Create excitement by being excited myself. Create quality by showing everyone I am doing the best job as I possibly can as a Division Director.
